#### **4. University Profile :**

The D. Y. Patil Education Society Deemed to be University (DYCESDU), Kolhapur has relentlessly pursued its' Vision and Mission that endorse alignment with global, national, and local expectations and demands, since inception in 2005. Originally a health sciences university, 2009 saw the path-breaking foray into innovative, interdisciplinary programs followed by multidisciplinary expansion into hospitality, engineering and allied health science programs; the latter in sync with the call of the NEP 2020.

The health sciences programs, including MBBS, MD, MS, B.Sc Nursing, M.Sc Nursing, Bachelor Physiotherapy, Masters Physiotherapy are designed to provide students with in-demand employability skills. Fellowships in Medical disciplines in 13 niche specialties create expertise in areas that contribute to improved healthcare for the local population as well as the nation. Skill-based undergraduate programs, including B. Optometry, B.Sc in OT Technology, Medical Lab Technology, and Radiography and Imaging Technology, address industry demands. Innovative M.Sc. programs in Medical Physics, Medical Biotechnology, and Stem Cell and Regenerative Medicine offer students a platform for doctoral research progression, international opportunities, industry employment, and cutting-edge research and innovation.

The UGC Quality Mandate (2018) finds echo in the university's adoption of the ten verticals in concept, principle and/or implementation in the various programs. The journey towards quality improvement is notable by the 'A' Grade NAAC accreditations in 2012 and 2017, NABH (2020), NABL (2020), and ISO-9001:2015 Certification (2019 and 2022). These underscore our unwavering commitment to excellence, as does our registration with NDL, NAD, ABC, and Shodhganga.

A fundamental commitment to continuous quality improvement is reflected in all aspects of functioning and governance, through the IQAC. Recent quality initiatives have included updating the Examination Manual, revising our IT policy, and conducting IT Audit, Green Audit, Energy Audit, Gender Audit, Academic and Administrative Audits. DYCESDU has organized International Seminars on Bioethics, and on Nursing Career Perspectives, National Seminars such as Emerging Quality Perspectives in Higher Education (EQUIP-HE) I and II as part of our ongoing commitment to excellence, besides numerous conferences, Workshops and CMEs.

The multi-tiered, multidimensional educational system is supported by transparent and accountable functioning of statutory and non-statutory bodies that promote, direct and ensure the effective operationalization of quality measures. Inclusivity, democracy, participative governance, and decentralization are integral principles embedded in various facets of all decision-making processes. Stakeholder representation, use of feedback, modern management techniques, responsibility-appropriate appointments, fair appraisal systems, are some systems that enable an adaptable system of governance that allows proactive responsiveness to the dynamic, global, educational landscape.

Resource mobilization from government and non-governmental sources promotes active engagement with our local, regional, and national communities across research, healthcare, and education domains. The exceptional teamwork displayed during the COVID-19 pandemic underscored our unwavering commitment to promoting equity and accessibility in healthcare, all while maintaining our strong sense of social accountability. Our response to the crisis involved a comprehensive transformation of our 800 bed hospital into a

dedicated COVID-19 facility. We worked closely in collaboration with local district authorities, which allowed us to swiftly establish an NABL-accredited RT-PCR Molecular Biology Lab, a crucial component in the fight against the virus.

Digital technology is an integral facet of our campus environment, enriching the learning experience for our university community. To bolster this, we have established a State-of-the-Art Simulation and Skill Centre, which is equipped with Holo-Lens, 19 Advanced Patient Simulators and 195 skills training models, providing an immersive and advanced learning platform. The impressive 1089 workshops benefiting total of 13,920 learners has been possible due to the efforts of 64 experienced trained university faculty, 7 of who are trained by MAYO Clinic, USA and the support of 17 external experts.

The presence of Wi-Fi accessibility, an Integrated Learning Management System (LMS), automation of Examination System, Software for administration and finance, both Central and Departmental Digital Libraries, Smart Boards, Visualizers, RFID in library, make the campus both efficient, forward looking and technologically meritable. In response to the changing educational landscape, MOOCs (Massive Open Online Courses) have been incorporated in curriculum. Swayam & NPTEL are used by faculty and students for teaching-learning purposes. These resources encourage extensive use of online databases, e-resources, audio-visual teaching aids, and recorded lectures uploaded on LMS. Use of social media platforms for teaching, discussions, mentoring, and interaction have further enhanced the application of digital technology in teaching learning.

Ph.D in interdisciplinary, basic and clinical sciences fuel research activities, and have paved the way for significant expansion of research output and knowledge creation. The last NAAC assessment of five years yielded a SCOPUS h-index of 56, with 30 awarded patents, 32 published patents, 17 granted copyrights, 353 SCOPUS, 305 Web of Science and 74 PubMed publications and 126 books, book chapters, and proceedings. Research funding from government bodies, NGOs, industry partners, and the university itself supports and drives our research initiatives. Research Methodology workshops, Empowering students in research and innovation, provision of seed money and research support, stringent anti-plagiarism guidelines and use of Turnitin software underscore an unwavering commitment to academic integrity, innovation, and professional accountability. Cutting-edge research facilities include the Advanced Instrumentation Facility, Central Research Laboratory, Stem Cell Laboratory, Animal House, Molecular Biology Lab and the APJ Abdul Kalam Incubation Centre. Hosting of DST-Inspire Fellow and DST Ramanujan Fellow and incubation of twenty-six ongoing startups are some laudable activities. The latter has garnered accolades such as the 'Technology Transfer Project' under SERB-TETRA and a National Innovation Award by the Ministry of Education. Faculty capacity building and motivation are an area of deliberate focus, actualized through investment in organizational resources, awards, incentives, seed money, and financial support for patents, copyrights, conference presentations and organization, travel, course registrations, etc. An active Medical Education Unit, soon upgrading to a department, regularly conducts Faculty Development Programs in collaboration with IQAC.

Our commitment to curricular innovation is grounded in Learning Outcome-based Curriculum Framework and Competency-based Medical Education. These underpin all efforts to strengthen graduate attributes, program-specific and program outcomes, and course outcomes, all of which guide learning outcomes to align with skills essential for

employability and profession. Collaborations with industry partners and NGOs significantly contribute to the enhancement of our curricula. Inclusion of self-directed learning in the timetable, fosters the growth and future adoption of life-long learning amongst students. The educational progress of our graduates after leaving the university evidences the success of the efforts made in curricular innovation.

The Cadaveric Bios kills Lab, first in Maharashtra, and only third in India, is a unique facility to train students as well as practitioners in surgical skills. The inhouse developed Soft Embalming Fluid (SEF) is key in providing a soft, life-like tissue flexibility to the cadavers allowing the haptics of live surgery for training and upskilling medical professionals.

Holistic student development is realised through offerings of 52 value-added courses, a diverse range of elective courses, promotion of research, mentorship scheme [University Moral Guidance Scheme (UMGS) student mentor ratio is 10:1], NSS, NCC, and Rotaract Club, which aim to ensure student preparedness for employment, their future role in nation-building, and for life. Communication Skill lab activities are integral to fostering professionalism and social readiness, even as the Entrepreneurship Development Cell and Placement Cell nurture leadership among graduates. The Counselling centre, Anti-Ragging Cell, Internal Complaints Committee and Gender sensitization and Women Development Cell provide activities to sensitize and support.

Student values provide foundational strength for their future. Bioethics Unit of the International Chair in Bioethics, Porto and it's active Student Wing play a pivotal role in disseminating information and training to peers and the community through short videos, international seminars, research endeavours, and active participation. The university celebrates important events such as National Vigilance Week, Republic Day, Independence Day, Mahatma Gandhi Jayanti, Doctor's Day, Teacher's Day, Nurses Day, Constitution Day, Savitribai Phule Jayanti, Chhatrapati Shivaji Maharaj Jayanti, Rajarshi Chhatrapati Shahu Maharaj Jayanti and Swami Vivekananda Jayanti with substantial student participation.

The indoor and outdoor sports infrastructure, Yoga Lab, Music Room facilitate overall student development and underpin their success in competitions on campus and outside. Active and enthusiastic Students Council and Student Clubs/Associations engage and enrich campus life having organized over 50 activities and competitions. Participation of alumni in academic activities, governance, curricular feedback and Quality assurance, provide invaluable perspectives that support continuous improvement. Financial and non-financial contributions of the Alumni Association evidence their connect with the Alma Mater.
